

IITL ACADEMY

IGNITE MINDS, UNLEASH POTENTIAL, SHAPE CAREER

Crack **JEE** and **NEET** Effortlessly
LET'S CREATE THE FUTURE TOGETHER

Message from the

DIRECTOR ACADEMICS

I am pleased to be a part of IIG Academy which is equipped with the best possible infrastructure and faculty members to provide integrated coaching for class XI & XII and dedicated one year coaching for XII pass-outs for the aspiring students to become engineers, doctors and scientists from the best institutions of our country like IITs, NITs and AIIMS and other reputed Engineering and Medical colleges.

After graduating from IIT and a few years of working in corporate sector, I decided to pursue my passion of teaching entrance oriented Physics to young students. Over the past two decades, I have produced hundreds of IITians and Doctors who are established not only in India but also abroad. Many of my students have also become renowned scientists, owners of hospitals and renowned consultants in the field of Engineering and Medicine. I am really proud of my students.

At IIG Academy it is our endeavour to provide a stress free environment for learning and holistic growth of the students while ensuring academic success. I assure the students of IIG Academy that we will use the latest teaching methodology & tools and our highly experienced teachers will help them easily climb the ladder of success.

Prof. R C Mishra

M. Tech., B.Tech.(Hons)-IIT Kharagpur

ABOUT US

Co-located in KT Global School campus and spread over an area of more than 15 acres of pristine greenery at the foothills of the scenic Barunei Hills in the outskirts of Bhubaneswar, IIG Academy is a promising preparatory institute for students aspiring to build bright careers in the field of Science, Engineering & Medicine. At IIG Academy, our persistent efforts are for imparting holistic education that not only builds fulfilling careers but also contributes towards transforming minds, thus shaping the overall personality of the students.

IIG Academy offers coaching and mentoring for career-deciding entrance examinations like **JEE/NEET** alongside preparing students to do well in CBSE Board examinations. Students are also trained for competitive exams like **NISER/ IISER, OUAT, CUET**, various Olympiads and a lot more. We also provide additional help in preparation and application process to students interested in studying abroad through our International Cell. With meticulously designed courses imparted by dynamic and experienced faculty in an enviable campus equipped with state-of-the-art infrastructure, IIG Academy holds the key to a brilliant and successful career.

Mission

Our goal is to shape young minds, empower them to make the best career decisions and enable them to secure their position in premier institutes and excel on a global platform through our uniquely designed and curated courses.

Vision

We aspire to be the best and most sought-after coaching institute in the country with an unparalleled record of academic excellence by imparting quality education that transforms minds and brings out the best in every student.

COURSES OFFERED

SCHOOL INTEGRATED PROGRAMME (SIP) (Two year program for Xth appeared/ passed students)

CBSE XIth and XIIth + JEE Main and Advance (M&A) / NEET Batch starting: 15th April 2024

Study Campus: KT Global School, Barunei, Bhubaneswar

This course is for students who have appeared in or passed the Xth board exam from **CBSE/ ICSE/ State Board** and are aspiring to pursue engineering or medical education after school. Under School Integrated Programme, IIG Academy offers coaching for medical and engineering entrance examinations with special emphasis on **NEET** and **JEE M&A** while simultaneously letting students pursue their XIth and XIIth class education for CBSE Board. A student enrolling into IIG Academy's integrated course has the added advantage of laboratory access at our incredible campus at KT Global School to do all experiments of their school curriculum. They will also have access to our state of art library and computer center, thus learning and scoring better in their school and board examinations as well. The School Integrated Programme ensures extra free time for students for self practice or to pursue their interest in co-curricular activities.

Subject Combinations

Students can choose from the following subject combinations:

For
JEE
Aspirants

- ◆ English, Physics, Chemistry, Mathematics along with Biology or Computer Science or Physical Education

- ◆ English, Physics, Chemistry, Biology along with Mathematics or Computer Science or Physical Education

For
NEET
Aspirants

ACHIEVERS (One year program for XIIth/+2 passed students taking preparatory break for a year)

JEE (M&A)/ NEET 2025 Batch starting from 28th March 2024 Study Campus: City Centre, Infocity, Bbsr

This course is designed for students who decide to take a break after their XIIth class for dedicated preparation of JEE, NEET and other competitive examinations. With a scientifically designed course and guidance of expert mentors, every student at IIG academy has a unique advantage for gaining clarity of concepts and wider exposure to problem solving skills, thus giving them an edge to score higher in any kind of competitive examinations.

CRASH COURSE (A short term program for XIIth/+2 passed/ Appearing Students)

NEET 2024 Batch starting from 21st March 2024 Study Campus: City Centre, Infocity, Bbsr

This short term course is designed for students aspiring to appear in NEET 2024. This is a 40 days' course with Daily Tests, Part Syllabus Tests (2 nos.) and Full Syllabus Tests (4 nos.).

STUDY ABROAD

If interested in pursuing undergraduate studies abroad, students enrolled in our School Integrated Program can avail additional help at extra cost from our International Cell at KT Global School for the following.

- Assistance for TOEFL/ELTS/SAT/AP and other qualifying examinations needed for applying abroad
- Mentoring and guidance for projects
- Foreign language courses
- International exposure through “worldwide student and teacher exchange programmes”
- Counselling help in the application process

International Cell at KT Global School has tied up with Michigan College Alliance, USA that ensures preferential admission to top 15 colleges and universities in the state of Michigan, USA.

Why

Choose IIG Academy?

Unique Teaching Methodology:

At IIG Academy, we follow the Triplex method of Teaching that entails:

- » Teaching fundamental concepts with illustrative examples.
- » Building Analytical Ability with a stepwise explanation of different concepts and numerical problems.
- » Development of Time Management Techniques by comparing step-by-step methods of solutions and shortcut tricks and Techniques.

Incredibly Efficient Faculty Members:

We have top faculty members from all over India including graduates from IITs' and NITs' with experience up to 25 years. They have mentored thousands of students, many of whom have become successful doctors and engineers, including graduates from renowned institutions like IIT and AIIMS. Our Academic Team is headed by Odisha's most famous Physics Teacher Prof (Er) R C Mishra popularly known as **RCM Sir**. He is a topper from IIT, Kharagpur with around 25 years of teaching experience in Physics for entrance exams.

Need-based Teaching from First Principles:

Learning is fun and easy at IIG Academy. We tailor our teaching approach to suit the pace and learning styles of our students, unlike those in the coaching industry who cause depression among students due to undesirable pressure. We recognize the transformative power of thinking based on first principles akin to how pioneers, inventors, and explorers approach complex problems. Using inquiry as a tool for deep diving, we empower our students to dissect concepts to their foundational elements, rather than merely accepting established knowledge at face value. Learning from first principles not only equips students with a robust foundation of knowledge but also nurtures creativity and innovation.

Emphasis on Personalized Learning:

At IIG Academy, we believe that every student is our responsibility and ensure that each one of them gets equal attention, care and opportunity to grow to their best potential. We acknowledge the uniqueness of every student and provide personalized learning, catering to diverse learning styles with a low student-teacher ratio of around 10:1. We also offer personal doubt-clearing sessions for each student.

Distinctive Study Material:

We do not burden our students with overwhelming volumes of study materials which mostly go to waste. We provide them concise study materials centered around fundamental concepts with graded problems. We also provide them with daily and weekly practice problems to enhance learning retention.

Avoidance of Rote Learning:

We believe in strong foundation-building rather than rote learning. Success due to rote learning is probabilistic whereas success due to a strong foundation is deterministic. Once the fundamentals are clear, no problem will remain a problem for the students.

Celebrating Curiosity:

IIG Academy fosters and champions curiosity as the foundation of learning. From our thoughtfully designed with active learning walls & roofs to our innovative tinkering spaces, advanced laboratories and verdant campus, every aspect of our institution is crafted to spark curiosity in our students, encouraging them to seek answers through exploration. This approach ensures that lessons learnt are deeply ingrained in our students' minds for a lifetime.

Exceptional Infrastructure with Integrated Sports Facilities:

IIG Academy boasts of a world-class campus equipped with all amenities like residential complexes, guest house, healthcare services, tuck shop and industrial laundry for self-sufficiency. The air conditioned hostel rooms with house keeping support and modern canteen where the student body decides the menu ensure comfortable living for students who decide to choose the residential option.

Campus sports facilities provide students with convenient access to physical activities, promoting a healthy and active lifestyle. Sports facilities provide opportunities for students to form lasting friendships, build a sense of community and responsibility, and maintain a healthy & stress free mind to meet academic requirements.

Leveraging Technology:

At IIG Academy, our Smart Classrooms are creative learning spaces which seamlessly integrate cutting-edge technology into the learning process. We have a full-fledged Computer Lab and Tablet-based e-learning content tailored for JEE and NEET students, complemented by regular online and offline tests to assess and monitor students' progress. Our online test platform applies AI for analysis and feedback on student's performance.

Disciplined and closely monitored Learning environment :

Every student taking admission into IIG Academy has the opportunity to thrive in a safe, secure, disciplined yet creative and engaging learning environment with all types of amenities. There is 24x7 CCTV surveillance and fully operational ERP system for close monitoring of students' progress. Every attempt is made to create a highly conducive atmosphere for students to focus on their academic pursuits and make best use of their time. Learning tablets with online study materials and Test platforms are provided to the students to offer them the advantage of modern day technological advancement.

Parent Engagement :

IIG Academy regularly conducts properly structured Parent-Teacher interactions, through which parents can have active involvement in their wards' learning process. ERP & LMS system are used to ensure hassle free communication about every aspect of the student's status with the parents. Besides, parents are continuously kept abreast of their wards' performance and progress through periodic PTMs also.

Salient Features of **COURSE STRUCTURE**

- » Scientifically designed academic planning
- » Focussed and systematic preparation through fixed hours of daily student engagement
- » High Quality printed/digital study materials
- » Customised theory classes for different programs
- » Science Lab for students of Integrated Program
- » Weekly and monthly assessment tests
- » Regular doubt clearing sessions
- » AI-based student's performance analysis on our online Test platform

ADVANTAGES

Huge and tranquil campus, equipped with world-class infrastructure to create a perfect learning environment.

Best mentoring system enabled by lower Student-teacher ratio and smaller batch sizes.

Experienced faculty with educational background of IITs, NITs & reputed universities.

Grooming for personality development and guidance for studies abroad. Assistance for TOEFL/ELTS/SAT/AP and other qualifying exams.

International exposure through "worldwide student and teacher exchange programmes".

Coaching by 'Specially Trained Teachers' with excellent track record of sending students to IITs/NITs/Medical Colleges.

Emphasis on experiential learning, smart science lab facilities at own campus.

Educational field trips designed for learning enhancement.

Separate hostels for boys and girls with comfortable AC/non-AC rooms and 3-tier security.

Convenient Transportation services to ensure timely and safe commutes to and from the Academy.

ADMISSION PROCEDURE

Direct Admission:

Available for all our courses.

Admission is based on the percentage of marks secured by the student in the last school/board examination.

A few scholarships are also available to meritorious students.

Admission through IIGA-SAT:

IIG Academy conducts the annual IIG Academy-SAT to select meritorious students for admission into various courses offered. Qualifying students are given scholarships based on their rank in the merit list based on IIGA-SAT and boards examination results.
